ARGO FT

INTRODUCING, ARGO FT, the newest face in the Triton ARGO line. With a trim, polished look, a 15" touch screen and anti-skimming options, this ATM is an excellent, affordable banking solution. The ARGO FT, a versatile through-the-wall ATM, offers high performance for a surprisingly low investment. The ARGO FT runs a Microsoft® Windows® Compact 7 operating system and Triton Dynamic Language (TDL).

With a long list of revenue-generating, added value services available and the ability to hold up to 9,000 notes, the ARGO FT is ideal for high-volume locations that would be over served with a full-function machine.

SECURE
Easy and inexpensive to service, the ARGO FT comes with all the security features you've come to expect from Triton. Available with a UL291 certified business hours or Level 1 safe, the ARGO FT comes standard with an electronic lock, or a Kaba® Mas Cencon lock option. ARGO FT is ADA, EMV, and PCI 3.1 compliant with optional Triton Key Mangement.

MADE IN THE USA
For the past 30 years, Triton has set the standard for manufacturing innovative cash dispensing solutions. Triton's affordable, high-quality ATMs are built in the United States, and are easy to upgrade and service. On average, less than one service call per year is logged, with most technical issues resolved by telephone.
